9 Years with Elevate

- **Before joining Clayton, what other roles have you held?** I was a PreK teacher in New Orleans and a home visitor for families with children ages birth to 3 in Chicago.
- **Three areas of expertise:** Engaging in meaningful interactions, building relationships, and increasing mindfulness to create more inclusive and intentional environments.
- **What do you love most about training?** I enjoy the process of identifying what might resonate with a teacher during training, ultimately helping to strengthen their practice and improve student outcomes.
- **If you could instantly change one aspect of ECE, what would it be?** I would increase the respect that society has for early childhood educators. This is a challenging and vital profession that demands a high level of expertise and contributes to our communities in countless ways. With more respect for the profession, I believe we can also advocate for fairer compensation for teachers and ensure they have the resources necessary for success.
